

## Appendix A : Resources

So that's it. A brief description of a simple model. Only a small area of a big subject has been covered, so if you're itching to follow this up, here are links to more resources for HTML and JavaScript relevant to simulating calculators.

- [Javascript 1.1 Specification](#)
- [Latest Javascript Specifications](#)
- [Latest HTML Specifications](#)
- [Calculator examples from "The JavaScript Source"](#)
- [Javascript example of an Anita 811 calculator](#)
- [Javascript example of an Anita 1000 LSI calculator](#)
- [Neil Fraser's JavaScript HP 35 simulator](#)

["How to write a calculator simulator"](#)
